

Choose the right solution for your analysis

With Waters as your specialty measurement partner, you're sure to get the tailored solution you need to achieve your workflow and analysis requirements.

Our LC solutions are purpose-built for your priorities.

DEPENDABILITY

FLEXIBILITY

PERFORMANCE

Featured Products

Arc™ HPLC

Accurate analysis for all

For everyday separations and method transfers

Optimized for 3.5–5.0 µm column chemistries

Arc™ PREMIER

Adaptable to your sample complexity

Designed for new method development, method transfer, method troubleshooting, and established methods

With 2.5–5.0 µm column chemistries

Acquity™ PREMIER

The very best in chromatography

Ideal for maximizing the sensitivity, repeatability, and robustness of LC and LC-MS applications

Optimized for sub-2-µm particle columns

9500 psi pressure rating

15,000 psi pressure rating

FAST > **FASTER ANALYSIS TIME** FASTEST

SENSITIVE > **INCREASING SENSITIVITY** MOST SENSITIVE

And with Waters as your partner, together we can formulate the ideal analytical strategy to take your science to the next level – because when your lab is at peak performance, the world benefits.
