

# Waters eProcurement

## Purchasing solutions for every lab

Simple, connected purchasing provides seamless purchase order automation to make commerce easy and transparent.

## How Can Your Organization Benefit?

24/7 Availability

Easy, Intuitive Shopping Experience

Company-Wide Pricing

Preferred Suppliers Spend Management

Increase Order Accuracy

Automatic Updates - Seamless Purchasing

## Purchasing Solutions Tailored to Your Business Requirements

### Discovery

We will recommend the best integration for you, based on your specific needs.

### Integration

Seamless implementation of the end-to-end system in your environment.

### Testing

Testing will be done each step of the way and we will provide any necessary training.

### Go-Live

Your team will start reaping the benefits of our eProcurement systems and will have our team available for support.

## Getting Started is Easy

### Shop

Robust search and select, real-time price and availability, and enhanced content.

### Buy

Submit POs (Purchase Orders) in cXML, EDI, xCBL or flat file formats, to receive order acknowledgements and advance ship notices.

### Invoice

Invoice integrations streamline the accounts payable, invoice and payment processes.

Contact your Waters Representative or email [eProcurement@waters.com](mailto:eProcurement@waters.com) today to determine if you qualify for eProcurement integration.
